THE SCIENCE
TO YOUR
SUCCESS.**

Manufacturing & Engineering

The Manufacturing & Engineering (M&E) graduate positions give talented graduates a solid introduction to Dow to gain relevant experience on project work. This role allows you to contribute right from the start. If you are looking for an opportunity to influence a global organization while at the same time developing the skills and network needed to make a real difference, our graduate M&E positions could be perfect for you!

Qualified candidates can start their journey at Dow as:

- Production Engineers
- Maintenance Engineers
- Improvement Engineers
- Process Engineers
- Piping Engineers

The roles will be located at several locations in EMEA.

Candidate requirements:

- Master Degree in Engineering or related fields
- Excellent interpersonal and communication skills
- Fluency in English and a second European language is preferred
- Innovative and open-minded in a lifelong learning environment
- Maximum of 3 years prior working experience

We Offer:

We are a company of visionaries who believe there's a solution to every challenge. In addition to adventure, daily rewards and the opportunity to carve out a unique and vibrant career, we offer:

- Rewards and recognition for strong performance
- Competitive and comprehensive benefits package
- A creative, dynamic and friendly work environment
- Monitoring from leaders who rank among the best in the industry

At Dow, we are always looking for ambitious talent that we can help develop into strong players. Check out Dow Campus (campusemeai.dow.com) and discover the science to your success!

Want to apply directly? Please send your CV and motivational letter to feuhrra@dow.com. For some locations an assessment center will be part of the selection process.
