

Research & Consulting Group is a globally active management consulting group. We are primarily focused on major international companies in the mining and metals industry. For our subsidiary in Düsseldorf, Germany, we are currently looking for a

Consultant

Your challenges:

- Participation in national and international management consulting projects
- Performance of analysis and evaluations
- Project management and planning
- Challenging and diversified projects, such as mapping and optimization of business processes as well as implementation support of identified measures; development and implementation of business strategies; elaboration and execution of investment strategies, Feasibility studies and Due Diligence etc.
- Work in international teams

Your profile:

- Graduates and young professionals with an above-average degree of a Master's programme in the field of Economics, Engineering or Business Administration
- Initial work and / or consulting experience through internships, participation in student consultancy projects etc.
- Very good analytical and conceptual skills as well as methodological expertise
- Excellent knowledge of English, knowledge of other languages e.g. German or Russian would be an advantage
- Distinctive social competence and a high level of communication skills
- Mobility and the desire to work in an international and dynamic environment

What we can offer you:

- Exciting and varied tasks in an international working environment with renowned customers
- Integration in consulting teams with experienced colleagues
- Participation in customer board presentations
- Comprehensive training as well as individual further development
- Above-average remuneration

We are looking forward to your application! Please note that only complete applications, including a covering letter, CV and certificates will be considered further in the selection process. Please send your application by email to:
